Walnut Creek, CA 94598

925-448-2908

WCVH Family,

Today, we are writing you about the **Canine Influenza Vaccine (CIV)** shortage. Unfortunately, all CIV vaccines are currently on backorder due to manufacturer supply issues and are expected to be available at the start of the new year. We will let you know if it becomes available sooner. If you are planning on boarding your pet, please get in touch with your boarding facility directly to see how to proceed. Please call our office if you have any questions.

Regards,

WCVH Team
